Profile

I was born in 1997 in Trabzon. I am Electrical-Electronics Engineer. I live in Trabzon but I lived in so many different cities this can change. I have an e-commerce site and I do freelance projects. I recommend you to look at my website for my work. https://waynee.dev/

Education

Electric-Electronic Engineering   **Sep 2016 - Jun 2021**

Gümüşhane University

Final Thesis : Automatic solar panel cleaning system

Final Project : https://youtu.be/FO3vW1siitE

Diploma Grade : 2.62

High School Education   **Sep 2013 - Jun 2015**

Fatih Sultan Mehmet Anatolian High School, Trabzon

High School Education   **Sep 2011 - Jul 2013**

Hamiyet College, Ankara

Employment

Frontend Developer   **May 2022 - Feb 2023**

OdinBoost Inc., New York (Remote)

We renewed the site named Odinboost.com as frontend and backend. I completed the frontend part of this project alone. I used Javascript, Typescript, Tailwind and Nuxt 3 technologies in this project. We built a website that is SEO compatible and very efficient for Google Adwords. The site uses detailed dashboard (CMS) and paypal, coinbase and stripe payment methods.

Frontend Developer   **Jan 2022 - May 2022**

Teknar Technology, Trabzon

The company provides public transportation services in many cities. While working in this company, I worked on projects based on figma to html, css. I used the Nuxt 2 framework in the projects. I also did an internship in this company before.

E-Commerce Site Management   **Jun 2021 - Present**

I sell digital game products for the League of Legends game, which is affiliated with Riot Games, through Gamemarket24.com, which I have opened on my own individual company. With our own software script that we have installed on the site, customers make a practical purchase with virtual pos instantly.

Frontend Developer / E-commerce   **Jul 2021 - Present**

I founded a sole proprietorship in Turkey and I am selling specialized websites and products over the internet.

E-Commerce Management   **Sep 2019 - Jan 2022**

I managed 4 local and 1 global (Europe/America) E-Commerce sites. I provided services in many games of Riot Games on our sites. We communicated with our local and foreign customers through the live support of our site and provided them with customized services and job opportunities for more than 100 freelancers working within our organization.

Community Manager   **Aug 2019 - Mar 2022**

Riot Games, Gümüşhane

I worked as a "Campus Ambassador" for 2 years as a community manager for the games affiliated with Riot Games, which includes E-Sports clubs at universities. During my duty, I established an E-Sports community at Gümüşhane University and managed a community with more than 100 members. With this community, I organized many social activities and online tournaments and helped members meet different people.
